

WEB 12 INDEX INDEX TO A-CHS NEWSLETTERS
BY SUBJECT OF ARTICLES
To issue #147 & Special Issue #17 ~ updated November 2011

First number is issue number, the number after the dash – is the first page of the article, ie 68-5 is issue 68 and page 5. Special issues are all about one subject and are noted as SI-7, being special issue No. 7. Issues 1 to 60 were written and edited by Jane Dudley. Her newsletters contained numerous brief articles about current affairs, material from a broad geographic area, many, many letters, and recipes. Some items in these issues were not indexed. I selected those items that reflect local area history and families. In brief, her interest was in the society. Issues 61 forward were written and edited by John Dudley whose interest is local history. *****
